

Northland Community & Technical College

Carpentry Program Advisory Meeting

Agenda – 3-22-2016

Meeting minutes

The Spring 2016 Carpentry Program advisory was canceled due to lack of response of membership. Most of the members are also members of the Forx Builders Assoc. the local chapter of the National Home Builders Assoc. The Forx Builders Assoc. was holding a local event also on 3-22-2016 so RSVP's were only one member Rusty Wysocki, Wysocki Building Co. With lack of attendance the meeting was canceled. Most of are advisory members are active with the House project that is sponsored by the Builders Assoc. and know the progress we are at in the program and the house project. This group is very active with keeping the program current with building and energy trends and codes, and keep the program up to date.

Loren Abel

Carpentry Instructor
