

Advisory Board Meeting Minutes 11/1/2023 4:00pm

Meeting started at 4:10.

Karl talked about our new dean Monty, who I did email about our meeting date and time, but he wasn't on campus and did not attend the meeting. We would have liked to introduce him to the group.

Karl does offer the EPA test twice a year, once before Christmas, and once again in the spring. He did express to the people in attendance that if they had any employees that need to take it, they can sign up and Karl and proctor the exam.

Karl talked about the outside vendors from gastite and wardflex that come in and get the kids certified. He asked if there was anything else that they think that we should be doing.

Ben from Northern talked about the possibility of using vr headsets for some training at Goodman in Texas.

Karl talked about our low enrollment, still struggling with numbers. We also talked about how in the last few years fewer the kids have started to lean more towards 2 diplomas instead of getting the AAS, because they don't have to take so many classes.

We talked about some of the events that we attend to try to get our name out there and try to recruit students.

Clark asked about the placement rate of our students, I told him that all of my students could be working right now if they wanted to.

Career Impact Academy was brought up. I was really hoping Phil Kramer would have been able to make the meeting because he is very involved in that project, and I would have loved to hear what is going on with it.

Meeting closed at 4:45

People in attendance

Mikki Freije	Vilandres	mfreije@hotmail.com	701.775.4675
