# GPS LifePlan

## What is the GPS LifePlan?

- The GPS LifePlan is an interactive resource tool that helps students succeed in reaching their Career, Education and Personal goals.
- This program provides a structure for students to define their goals and helps them establish plans to meet those goals.
- There are 5 sub-plans included in the GPS LifePlan. They include the CareerPlan, EducationPlan, FinancePlan, LeadershipPlan and PersonalPlan.
- There are three major components to the GPS LifePlan: the web-based GPS LifePlan tool, an electronic portfolio (eFolio) and campus activities and events.
- The GPS LifePlan is designed to be an individualized program. This
  program has the flexibility to be used by students of all ages and at all
  stages. There is a basic structure and format provided but each student's
  experience will be unique and he or she can decide how to make it work
  for them.

"Planning ahead [and] mapping a visual outline is always good. Any 'preventive maintenance' or 'preplanning' can only be a benefit!"

- College Student

Goals + Plans = Success

"I have been to GPS Workshops and I think they are an excellent way to plan your college journey."

- Century College Student
