New location for CyberZone is down by the Library hallway printer.

Why do we have to have these expensive desks for the CyberZone? We could spend less on desks and more on the computers…

Karla Anderson wants to know if we can get a kiosk for the front desk location to have a repository for the program information.  A touch screen station would work great for printing that information

Talk to Stacey about why we use these push down monitors when the computers are only used for computer work.
